

## Kiss My Face and Nut Allergies

ALWAYS CHECK WITH YOUR ALLERGIST!

The following products contain Amygdalus Dulcis (Sweet Almond) Oil and should not be used if you have a nut allergy:

- Olive & Aloe Moisturizer
- Olive & Aloe Fragrance Free Moisturizer
- [Sonora Almond Hand Soap](#)

\*\*the new moisturizer formulas for 2015 will not contain almond oil. Please check back of label

FYI-Shea is not a true tree nut and appears to be safe for nut allergies. Of course, always check with your allergist.

Coconut, technically a drupe fruit, is a member of the palm family, which is not related to tree nuts or peanuts.

Again, check with your allergist.

\* Final products are not tested for trace amounts of almond.
